

MATERIAL PRESENTATION REFLECTION LOG

BASIC INFORMATION			
Adult Learner's Name	Tredoux Willemse	Cohort Group	PreK 4
Material Presented	Sweeping	Area	Practical Life - Care of Environment
Length of Presentation	10-12min	Date	09/22/2024

MATERIAL PRESENTED	
The name and age of the child receiving the presentation	Various children ages 3 - 5 years
Why do you think the child is ready for the presentation of this material?	Children are ready when they can handle child-size tools safely, show interest in helping maintain the classroom, and have basic coordination for holding and moving a broom.
What is the purpose of the presentation?	To teach care of environment, develop coordination through sweeping motion, build responsibility and independence, and provide real classroom maintenance skills.
Did the child perform as you expected during the presentation? Why?	Yes. Children typically scatter crumbs everywhere on first attempts which is normal. They love having a real broom and take the work seriously. The dustpan angle is tricky for them initially but they figure it out with practice.

<p>What did you find successful in the presentation? What needs to be improved?</p>	<p>Successful: Using tape to mark a small sweeping area helps contain the mess. Child-size brooms are essential - adult brooms don't work. Children show high engagement and want to sweep during cleanup time.</p> <p>Needs improvement: Must demonstrate even more slowly, especially the dustpan technique. Need multiple brooms to avoid conflicts. Should set clearer limits on "making mess to practice sweeping."</p>
<p>What will you present to the child next?</p>	<p>Sweeping after art projects and snack time, outdoor sweeping with bigger area, sweeping leaves outside, and eventually dustpan use without assistance.</p>
